To whom it may concern,

Thank you for notification on the slight change to the plans ref the above application. The only difference I can see, unless I'm missing something which is quite possible, is the addition to a frosted window, to the garage on the western boundary.

Our biggest concern, **as already highlighted**, is the loss of light, and our right to light.

[REDACTED]

[REDACTED] As per the photograph, there is a sewer drainage network on the western boundary, that criss cross the boundaries between the [REDACTED] down to the pavement and road. There are also 2 fully established hedges that attract nesting birds. The hedge shown in the photograph houses wrens. The other hedge, not shown, runs the length of the drive between the [REDACTED] which supplies food for birds ref it's berries. I would just like to clarify the distance between the [REDACTED] is just shy of 2 metres, to give you some understanding as to how [REDACTED] [REDACTED] The other main concern are the sewer drains, 4 man hole covers [REDACTED] wouldn't want disturbed, nor the hedges killed due to what would be deep excavation.

Kind Regards

Gary and Ros Till
