Infrastructure studies

- [Strategic Infrastructure Delivery Plan May 2014 \(pdf\)](#)

Provides an update on the progress of delivery of infrastructure outlined in the Local Plan (Core Strategy)

- [Infrastructure Background Paper July 2007](#) (opens as pdf)

This study provides information on existing and future infrastructure provision and seeks to co-ordinate the priorities of infrastructure providers and the requirements of the local plan

Partnership for Urban South Hampshire Studies

The housing policy and strategy documents were prepared for the Partnership for Urban South Hampshire (PUSH) and are the result of work to develop a sub regional strategy.

As one of the eleven authorities contributing to PUSH, Havant will be delivering its local plan as part of a sub regional approach. Many of the proposals in the PUSH area will have impacts beyond individual local authority boundaries and so the evidence needed has been undertaken on a wider area basis. These evidence studies have been produced in partnership between the individual authorities to deliver the sub regional PUSH growth requirements.

Relevant documents on [PUSH website](#):

- Sub-regional Strategy Infrastructure Updates November 2006
Update on critical and other infrastructure requirements
- Sub-regional Strategy Background Document 4 Infrastructure December 2005
This paper identifies subregional infrastructure needs where known and is based on information provided by the key provider authorities, agencies and companies, through the stakeholder workshops, the response to the 'Where shall we live' consultation.

Hampshire County Studies

- [Broadband](#) (external link to HCC website)

Access to broadband is a vital component of infrastructure in today's world. It is key to growing a sustainable local economy, vital for education and home working and an increasingly central part of community cohesion and resilience, particularly in rural areas.

The Hampshire County Council Broadband webpages provide detailed information on the Hampshire Superfast Broadband project, including postcode analysis for the whole County showing current and planned coverage for all providers.

Hampshire County Council has been working with the Hampshire and Isle of Wight Planning Officers Group to develop guidance and information for Local Planning Authorities and Developers around the drivers and benefits of ensuring high speed broadband provision is in place on new developments and the methods which can be employed to achieve this and have published two helpful guides, one for Local Planning Authorities and one for Developers.

- [Hampshire School Places Planning Framework 2013-18](#) (external link to HCC website)

This plan sets out the surpluses and capacities of all schools in Hampshire, together with an assessment of future needs

- [Hampshire Strategic Infrastructure Statement Version 1 \(pdf 1.33mb\)](#) (external link to HCC website)

This document is a position statement, or 'snapshot', detailing the infrastructure requirements identified by Hampshire County Council and its partners, shown for each of the Hampshire's districts.

- [Memorandum of Understanding June 2013 \(pdf 45.34kb\)](#)

This Memorandum of Understanding (MoU) provides a broad framework to assist its signatories as they come to determine priorities for planning, funding and delivering infrastructure. Includes Havant Borough Council.

Hampshire Community Infrastructure Study

The purpose of this study is to assess the non-transport infrastructure required within Hampshire, Portsmouth and Southampton to support the planned housing growth to 2026. It has been prepared in consultation with the various service providers and gathers the best available evidence at a sub-regional scale.

It focuses on investments currently identified in the Hampshire County Council Capital Programme 2010/11 to 2012/13
