**The Town and Country Planning (Development Management Procedure) (England)
Order 2015
Grant of Planning Permission**

Application Number: APP/20/00889

Site Address: 26 West Haye Road, Hayling Island, PO11 9RN

Proposal: Variation of Condition 2 of Planning Permission APP/19/00021 in relation to removal of an unsound wall to the western boundary and its replacement with 2m high wooden fencing with concrete posts and concrete gravel boards

Further to your application received on 25 September 2020, which was valid from 12 October 2020 Havant Borough Council, as Local Planning Authority, **Grants Planning Permission** for the above proposal in accordance with the submitted plans and particulars as detailed below.

This permission is subject to compliance with:

- (i) The plans and other documents submitted with regard to your application; and
- (ii) The following conditions:

Conditions:

- 1 The development hereby permitted shall be carried out in accordance with the following approved plans:
Location and Site Plans and Fence Details - 19/803/05
Reason: - To ensure provision of a satisfactory development.

- 2 The development in respect of plots 2 and 3 hereby permitted, shall not be occupied until:
- a) A water efficiency calculation in accordance with the Government's National Calculation Methodology for assessing water efficiency in new dwellings has been undertaken which demonstrates that no more than 110 litres of water per person per day shall be consumed within each of plots 2 and 3, and this calculation has been submitted to, and approved in writing by, the Local Planning Authority; all measures necessary to meet the agreed waste efficiency calculation must be installed before plots 2 and 3 are first occupied and retained thereafter;
 - b) A mitigation package addressing the additional nutrient input arising from plots 2 and 3 has been submitted to, and approved in writing by, the Local Planning Authority. Such mitigation package shall address all of the additional nutrient load imposed on protected European Sites by the relevant development when fully occupied and shall allow the Local Planning Authority to ascertain on the basis of the best available scientific evidence that such additional nutrient loading will not have an adverse effect on the integrity of the protected European Sites, having regard to the conservation objectives for those sites; and
 - c) All measures forming part of that mitigation package have been provided to the Local Planning Authority.
- Reason:** There is existing evidence of high levels of nitrogen and phosphorus in the water environment with evidence of eutrophication at some European designated nature conservation sites in the Solent catchment. The PUSH Integrated Water Management Strategy has identified that there is uncertainty as to whether new housing development can be accommodated without having a detrimental impact on the designated sites within the Solent. Further detail regarding this can be found in the appropriate assessment that was carried out regarding this planning application. To ensure that the proposal may proceed as sustainable development, there is a duty upon the local planning authority to ensure that sufficient mitigation for is provided against any impacts which might arise upon the designated sites. In coming to this decision, the Council have had regard to Regulation 63 of the Conservation of Habitats and Species Regulations 2017, Policy CS11 of the Havant Borough Local Plan (Core Strategy) 2011 and Policy E14 of the Pre-Submission Havant Borough Local Plan 2036.
- 3 Prior to the first occupation of any of the hereby approved dwellings, a detailed soft landscaping scheme for the areas shown on the hereby approved plans as new landscaping shall be submitted to and approved in writing by the Local Planning Authority. Such scheme shall specify the proposed distribution and species of ground cover to be planted, the positions, species and planting sizes of any trees and shrubs to be planted and/or retained, and timing provisions for completion of the implementation of all such landscaping works.
- The implementation of all such approved landscaping shall be completed in full accordance with such approved timing provisions. Any tree or shrub planted or retained as part of such approved landscaping scheme which dies or is otherwise removed within the first 5 years shall be replaced with another of the same species and size in the same position during the first available planting season.
- Reason:** To ensure the appearance of the development is satisfactory and having due regard to policies CS11 and CS16 of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework 2019.
- 4 No dwelling hereby permitted shall be occupied unless or until the development has erected a minimum of one bat roosting unit and one bird nesting unit within the curtilage of each dwelling, in regards to securing ecological mitigation and enhancement measures in accordance with Conservation Regulations. The boxes shall be retained as such thereafter.

Reason: To provide ecological protection and enhancement in accordance with the Conservation Regulations 2010, Wildlife & Countryside Act 1981, NPPF, NERC Act 2006 and Policy CS 11 of the Havant Borough Core Strategy March 2011 and National Planning Policy Framework.

- 5 The area shown on the hereby approved plans for the parking, turning and manoeuvring of vehicles, and other vehicular access arrangements to serve the development shall be provided and made fully available for use prior to the development being first brought into use and shall be retained thereafter for their intended purpose.

Reason: In the interests of highway safety and having due regard to policy DM13 of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework.
