Dear Ms Clark,

Re: Declaration of works of building over/close to a public sewer (minor) or lateral drain.

Address: 15 Woodlands Way, Havant, Hampshire, PO9 2EA.
Proposal: Single storey rear and double storey side extension.

Having considered the above proposal[s] submitted with the signed declaration of the self-certification document, Southern Water finds the plan single storey rear and double storey side extension is acceptable.

The granted approval is based on the information provided by you on the self-certification document and any changes on site will require a further submission of details for approval:

1. No structure (footings, walls etc.) running **within 500mm** from the existing public foul sewers/manholes will be permitted. Any proposed structure within 3.00 meters of the public sewers, must have foundations to a depth of at least 150mm below the invert level of the sewers/manholes. Care must be taken when working in the area of the public sewer to ensure no damage is caused. Any damages will be repaired at the client's expense.
2. Any new connections to the public sewerage system will require a **Section 106 connection application** to be submitted and approved by Southern Water Services.

We refer you to Southern Water Health and Safety Advisory which can be viewed in the Developer and Builders section of the Southern Water website as in the link below:

southernwater.co.uk/developing-building/health-and-safety

This approval is given on the basis that you will review this Advisory and take the necessary actions with regards to Health and Safety.

Southern Water Services reserves the right to review the information provided for this application and undertake site inspections to confirm compliance with declaration of works.

Should you require any further information regarding this matter, please do not hesitate to contact us on the above telephone number.

Yours sincerely,
