For: Bayith Rest Home

**The Town and Country Planning (Development Management Procedure) (England)
Order 2015**
Grant of Planning Permission

Application Number: APP/20/00895

Site Address: Bayith Rest Home, 18-20 Bevan Road, Waterlooville, PO8 9QH

Proposal: **Proposed single storey rear extension to form an isolation room; retention of conservatory and first floor rear extension to form additional bedroom.**

Further to your application received on 28 September 2020, which was valid from 23 October 2020 Havant Borough Council, as Local Planning Authority **Grants Planning Permission** for the above proposal in accordance with the submitted plans and particulars as detailed below.

This permission is subject to compliance with:

- (i) The plans and other documents submitted with regard to your application; and
- (ii) The following conditions:

Conditions:

- 1 There shall be a maximum of 16 residents at the site at any one time in perpetuity.
Reason: To ensure sustainable development that accords with the Habitats Regulations Assessment (HRA) Appropriate Assessment (AA) dated 8/3/21 for the net gain in number of residents for this development. Any further increase in resident numbers will require additional mitigation to address impacts which might arise upon the designated sites. In coming to this decision, the Council have had regard to Regulation 63 of the Conservation of Habitats and Species Regulations 2017, Policy CS11 of the Havant Borough Local Plan (Core Strategy) 2011, and Policy E14, EX1 and E12 of the Emerging Havant Borough Local Plan.

- 2 All sanitary fixtures and fittings which are installed as part of the development hereby permitted shall comply with the submitted water efficiency statement on the Council's website dated 09/03/21. At all times following occupation of the development hereby approved, all measures necessary to meet the approved water efficiency usage shall be maintained so as to ensure that no more than 110 litres per person per day shall be consumed by the 2 additional residents in the development in perpetuity.
Reason: There is existing evidence of high levels of nitrogen and phosphorus in the water environment with evidence of eutrophication at some European designated nature conservation sites in the Solent catchment. The PUSH Integrated Water Management Strategy has identified that there is uncertainty as to whether new housing development can be accommodated without having a detrimental impact on the designated sites within the Solent. Further detail regarding this can be found in the appropriate assessment that was carried out regarding this planning application. To ensure that the proposal may proceed as sustainable development, there is a duty upon the local planning authority to ensure that sufficient mitigation is provided against any impacts which might arise upon the designated sites. In coming to this decision, the Council have had regard to Regulation 63 of the Conservation of Habitats and Species Regulations 2017, Policy CS11 of the Havant Borough Local Plan (Core Strategy) 2011, and Policy E14, EX1 and E12 of the Emerging Havant Borough Local Plan.
