Dear Mr Eames.

I would like to object to the building of the new headquarters of Portsmouth Water on Solent Road Ref APP/21/00601 Alt Ref PP-09849364. This development would increase the traffic on a road that is already far too congested. The increase in traffic will cause more pollution from cars and more noise. This development will also result in the felling of some trees which help to mitigate climate change. I hope this development will not go ahead.

Yours Faithfully
GINA SEARLE G. Searle (Miss)
