Dear Sir

27 Langstone High Street PO9 1RY

Loft conversion, windiow and door alterations Constraints include Conservation Area and High Quality Design.

This is a very poor design with excessive fenestration, including a massive balcony Velux window, a change to all the window panes on the house from small panes or dividers to large panes.

The house is one of a matching pair and this proposal adversely affects the appearance of both the properties and sets a precedent for all the similar houses in Towers Garden, which *this pair of houses formed part of.*

I strongly urge you not to allow this planning application.

Yours faithfully

Cecily Hughes
On Behalf of the Langstone Village Society
