Dear Sir/Madam,

Re: T.P.O. 1779

Please find enclosed the following documents requesting removal of 2 x sycamore trees to be replaced with trees with a small rout base:

1. Application form.
2. Picture of trees having been trimmed previously.
3. Plan showing where trees are situated.
4. Report from MJC Tree Services Limited.
5. Letter from our neighbours at No 41.
- 6.

I am happy to replace the Sycamore trees with trees with a smaller rout base such as Silver Birch/Palms or something you can suggest. Additionally, if you approve my application, I am happy to contribute to the Hampshire tree planting plan.

The reasons for this request are as follows:

1. We lose a considerable amount of light in home.
2. The trees adversely affect our Solar Panels.
3. We are forever having to dig out new trees that have self-seeded
4. Come the Autumn we have to spend about a month picking up leaves then transporting them to the local dump, at our ages 75 & 72 years this is becoming very difficult as usually ends up with a number of visits to a Chiropractor.
5. The on going cost of trimming the trees every two years is becoming much more difficult as we are both retired and on limited funds.

(2)

6. Our paths at the front of the house are being moved by the roots of the trees and is causing fence problems.

Should you wish to contact me by e-mail my address is: royosborne1@virginmedia.com or by phone on 02392492884.

I sincerely hope you will approve this application, Sycamore trees are a menace and not native to this Country.

Yours faithfully,

Roy Osborne.
