

Dear Havant planning department,

My name is Lizzie and I am 12 years old. I live in Old Bedhampton and I love it, as it is. Building houses in this area is not only inconvenient, it is dangerous. Every day, after school, me and my sister walk home from the bus stop. I enjoy it as it is peaceful and quiet. However, if you build a load of houses down here you will be completely ruining one of Havant's pride and joys. As I am getting older, I am spending more time meeting friends over the park, going for cycle rides and taking my dog on walks. Building these houses is a huge mistake and I guarantee that you will regret it. 50 more houses in our area will cause around 100+ more cars swerving and screeching around the corners of this beautiful, old village. I sincerely hope that you won't go through with this harmful development as it will just make 2020 even worse than it already is.

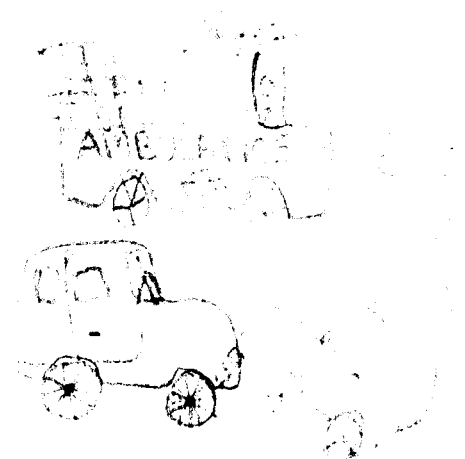

Yours sincerely,

Lizzie Coddling
