Dear Sir/Madam,

Proposal: Two storey rear extension including new cat-slide roof and dormer; re-roof existing garage; decking to rear of 700mm height.

Site: APP/20/00902: - 6 Shawfield Road, Havant, PO9 2SY.

Thank you for your letter dated 13/10/2020.

Please see the attached extract from Southern Water records showing the approximate position of our existing foul sewer within the site. The exact position of the public assets must be determined on site by the applicant.

Please note:

- The 225mm diameter gravity foul sewer requires a clearance of 3 metres on either side of the gravity sewer to protect it from construction works and to allow for future access for maintenance.
- No development or tree planting should be carried out within 3 metres of the external edge of the public gravity sewer without consent from Southern Water.
- No soakaways, swales, ponds, watercourses or any other surface water retaining or conveying features should be located within 5 metres of a public sewer.
- All existing infrastructure should be protected during the course of construction works.

Please refer to: southernwater.co.uk/media/default/PDFs/stand-off-distances.pdf

Furthermore, it is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

Southern Water requires a formal application for a connection to the public foul and surface water sewer to be made by the applicant or developer.

To make an application visit developerservices.southernwater.co.uk and please read our New Connections Services Charging Arrangements documents which are available on our website via the following link: southernwater.co.uk/developing-building/connection-charging-arrangements

In situations where surface water is being considered for discharge to our network, we require the below hierarchy for surface water to be followed which is reflected in part 3 of the Building Regulations:

- Reuse
- Infiltration
- Watercourse
- Storm sewer
- Combined Sewer

Guidance on Building Regulations is here:

gov.uk/government/publications/drainage-and-waste-disposal-approved-document-h

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).
