Subject: NE Response- HRA and Appropriate Assessment APP/21/00050

Dear Lesley Wells,

APP/21/00050 | HRA & Appropriate Assessment - Construction of a 3 bay garage | Antrims Barn, St Peters Road, Hayling Island PO11 0RT (Havant)

Thank you for sending over the HRA and Appropriate Assessment for the above case on the 6th April, subsequent to Natural England's response dated 16th February 2021.

As discussed in the HRA, this site is located close to the Solent Waders and Brent Goose (SWBGS) site 'H60G', where up to 1,450 brent geese were recorded during 2016/17. In light of this, we would recommend that a Construction Environmental Management Plan (CEMP) is submitted to ensure that there are no noise or other disturbance effects to the SWBGS site, particularly in the overwintering period from October to March.

Construction Environmental Management Plan

Natural England advises a Construction Environmental Management Plan (CEMP) should be submitted to and approved in writing by the council's ecologist/biodiversity officer that identifies the steps and procedures that will be implemented to avoid or mitigate constructional impacts on species and habitats. The CEMP should include the following impacts:

- Noise and disturbance impacts to the nearby SWBGS sites

The approved CEMP should be secured via an appropriately worded condition attached to any planning consent and shall be adhered to at all times, unless otherwise first agreed in writing with the Local Planning Authority.

Please do get in touch if you wish to discuss this case further.

Thank you very much,

Mary Andrew
