Subject: Fw: Planning Application APP/20/01221 Land to the west of B&Q, Purbrook Way, Havant

Hello Daph

Thanks for the consultation for APP/20/01221 - Land to the west of B&Q, Purbrook Way, Havant.

I have undertaken a desk top exercise using the documents provided on Idox and make the following comments:

The supplied Arb report is comprehensive and to a high standard although it highlights significant tree loss on site to facilitate the development project and the following trees will be lost:

T1, T2, T3, T4, T5, T7, G1, G6 and sections of G4 and G7.

This is excessive and will impact on the area in terms of sustainable tree canopy cover, although there is a proposal to plant a number of trees in mitigation for the proposed losses these would take time to establish and fill a void left by the tree to be removed.

Based on the identified tree loss I would not be able to support this application in arboricultural terms, hence it would then be your decision to decide if the overall benefit of the site development outweighs this tree loss and not in conflict with Policy DM8.

If permission is given, then a full TPP and AMS must be conditioned along with a full tree planting programme.

I object on arboriculture reasons.

Thanks

J
