16th June 2021

Your ref APP/20/01228

Dear Sir/Madam

I refer to the above amended details received from you on the 14th June, this gives us only three days to update our previous representation. I hope you will take this into consideration should you receive this after the 17th June.

We wish to update this, the only difference that can be seen on the amendment is on the west elevation. There are two doors instead of four and one window is different.

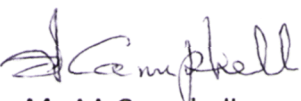

The length of the building will still take away our daylight and sunlight in our front room, bay window and front garden, it will also take our daylight and sunlight away from our bedroom where we only have one window which is on the east elevation.

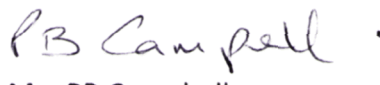

We have a large conservatory on the north of our house which is ~~in~~ our dining area and the height of the new building will also take away our daylight and sunlight in this room.

We also note that the kitchen layout is on the west elevation which, when our front windows are open, will cause cooking smells. Our whole outlook, access to daylight and sunlight will change completely and we object to this proposal.

This will INTRUDE ON OUR PRIVACY.

Yours Faithfully

Mr AA Campbell

Mrs PB Campbell
