

Existing Site Plan

The diagram illustrates the existing site plan. It features a large rectangular building footprint on the left. To its right is a smaller, more complex structure with a gabled roof. Above the main building, there is a row of four small square units, each with a chimney-like structure on top. The entire plan is enclosed within a rectangular boundary, with a dashed line indicating a site boundary at the bottom.

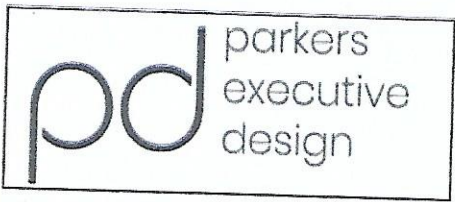

1

**Proposed
Site Plan**

The drawing shows a building with a flat roof and a smaller structure with a gabled roof. A red arrow points to the top right corner of the building. The building has four square windows on its upper level. The smaller structure has a gabled roof and is positioned in front of the main building. The entire drawing is enclosed in a rectangular border.

Holm Oak,
approx 7.5m high
