7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than

generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

- 7.3 This application to undertake work to a tree protected by a Tree Preservation Order relates to the proposed pruning of one Yew tree to the rear of the property.

Due to COVID 19 restrictions the Officer has not visited to view this tree but using mapping software, the tree does not appear to be viewable from any public areas.

Even allowing for some overstatement of the spread of the tree (implied to be 17m which I take to be diameter) a reduction of 3m on the south sector only is not significant. The reason provided is re shaping. It is likely that the effect of the completed job will only be noticeable to the tree owner.

8 **Conclusion**

Permission should be granted.

9 **RECOMMENDATION:**

That the Head of Neighbourhood Support be authorised to **GRANT TPO CONSENT** for application APP/21/00173

(A)

(B) for the following reasons/subject to the following conditions

- 1 The tree works for which consent is hereby granted shall not be carried out otherwise than in full accordance with all relevant content of BS 3998 (2010).
Reason: In the interests of tree health and safety.
- 2 The tree works for which consent is hereby granted shall be carried out and completed no later than one year from the date of this permission.
Reason: To control the timing of the works
