

Thanks for your time today.

As discussed although we have no concerns around the addition of a Pedestrian access to 145 Stakes Road we are confused about the plans. We are particularly concerned about the proposed temporary barrier which is shown in purple on the attached plan. This barrier appears to cut through the private estate of Taylor Close which is managed by our management company (REMUS Management). I believe you would need permission from the management company to do this. Also this barrier ends right outside my front window (redacted) I would like to understand why this barrier is needed and how long it will be there for.

Thank you
