Application for Grooming Room at retail premises

On 22nd August 2020 we opened a Pet Pantry in Emsworth, specialising in Natural and Raw dog feeding.

It has always been our aim to convert part of the building to grooming salon to complete the range of services that we offer to the local area.

The kitchen/store room is currently not being used, other than to fill the kettle for hot drinks or fill the water bowl for the passing dogs.

Externally there would be no change to the building at all, internally we would be fitting a hydraulic dog bath to the existing waste and fresh water feeds, painting the room and laying a new flooring.

The sink would then be connected to another waste and water feed that has previously been capped off, thus still providing the staff with fresh water.

We have been asked by so many customers when this service will become available and have the opportunity to employ another member of staff during these difficult times.

Part of our aim would be to provide services to local rescues to enable them to treat stray and neglected animals that would come into their care, we already have a close relationship with the RSPCA.

There are plenty of parking spaces locally in the public car parks and also 45 minutes street parking bays in the main High Street, for which our customers will be encouraged to use and to shop in the village whilst their dogs are being groomed, which will hopefully bring more trade to the local area.

Sincerely

Sharon Wotherspoon

Director and Business Owner
