The redevelopment shall commence within one month following the completion of the demolition work, unless otherwise agreed in writing by the Local Planning Authority.
Reason: To accord with Section 17(3) of the Act and to prevent premature demolition of the building and the creation of a "gap site" which will be prejudicial to the character and amenities of the Conservation Area, and having due regard to policies CS11 and CS16 of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework.

a) a 1:20 plan, section and elevation shown in relation to the opening into which it is to be set,
b) full size glazing bar section,
c) the method of opening and external finishes.
d) manufacturers' details
All work shall be carried out in full accordance with such approval and be retained thereafter.
Reason: To ensure the detailing is appropriate to this key site within the St Faiths conservation area in accordance with policies CS11 and CS16 of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework.

Reason: In the interests of the amenities of the occupiers of nearby properties and having due regard to policy CS16 of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework.
- 9 The development hereby permitted shall not be occupied until:
(a) A water efficiency calculation in accordance with the Government's National Calculation Methodology for assessing water efficiency in new dwellings has been undertaken which demonstrates that no more than 110 litres of water per person per day shall be consumed within the development, and this calculation has been submitted to, and approved in writing by, the Local Planning Authority; and
(b) All measures necessary to meet the approved water efficiency calculation have been installed.
Reason: There is existing evidence of high levels of nitrogen and phosphorus in the water environment with evidence of eutrophication at some European designated nature conservation sites in the Solent catchment. The PUSH Integrated Water Management Strategy has identified that there is uncertainty as to whether new housing development can be accommodated without having a detrimental impact on the designated sites within the Solent. Further detail regarding this can be found in the appropriate assessment that was carried out regarding this planning application. To ensure that the proposal may proceed as sustainable development, there is a duty upon the local planning authority to ensure that sufficient mitigation is provided against any impacts which might arise upon the designated sites. In coming to this decision, the Council have had regard to Regulation 63 of the Conservation of Habitats and Species Regulations 2017, Policy CS11 of the Havant Borough Local Plan (Core Strategy) 2011, and Policy E14, EX1 and E12 of the Pre-Submission Havant Borough Local Plan.

Any piling must be undertaken in accordance with the terms of the approved piling method statement.
Reason: The proposed works are in a sensitive groundwater catchment and there are potentially significant risks associated with groundworks in this area. Piling has the potential to impact on the drinking water source and therefore the applicant is advised to contact Portsmouth Water to discuss the details of the piling method statement and having due regard to Policy DM10 of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework.
- 15 No development shall start on site until a construction method statement has been submitted to and approved in writing by the Local Planning Authority, which shall include:
