

Hi Tina,

I have also noticed a small matter regarding the ground floor plan which needs to be rectified.

The current submitted drawings show the ground floor with an outdoor terrace and spa pool to the southern side (rear) of the building that is a duplicate of the earlier amendment. However, the current submitted site plan than moved the proposal approx. 2.2m to the south and to the east (*the reason for the latest amendment and consultation round I assume*) also narrows this outdoor ground floor terrace area and turns the spa pool by 90degrees to fit within the narrower terrace to the south.

Could you also take this up with the agent/applicant as to which arrangement we are to consider, and get him to provide consistent plans / drawing throughout.

Sorry for the lengthy email (below) and the highlighting of inconsistencies for you to address with the agent / applicant, but you need the correct information as much as we wish to see the same to offer our comments.

Trust all is safe within the planning teams given the currently imposed lockdown regime in operation.

David
