

North Existing

This architectural elevation drawing shows a house with a gabled roof. A chimney is located on the roofline. The facade includes a small square window, a larger rectangular window, and a large double door with a transom. To the left, there is a smaller structure with a door and a window. The drawing uses simple lines and shading to represent the building's form and features.

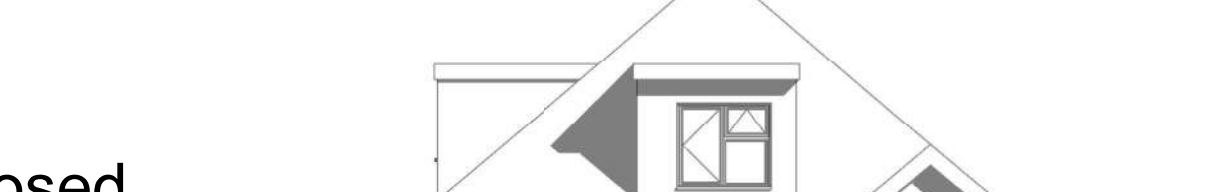

North Proposed

Proposed

South Proposed

Proposed

This architectural drawing shows the proposed exterior of the house. It features a gabled roof with a dormer window. The main facade includes a central entrance door with a transom, flanked by two large windows. To the right is a garage with a roll-up door. The drawing is a line art representation with some shading to indicate depth.

South Existing

A line drawing of a house with a gabled roof. A chimney is located on the roof ridge. A dormer window with a cross-hatch pattern is set into the roof. The main house has a large window with a cross-hatch pattern. To the right, there is a garage with a door featuring a cross-hatch pattern. The drawing is simple, using black lines on a white background.
