Hi Daphney,

Sorry to get comments to you so late on this one. In essence I have no objection to the change of use, but I feel that the frontage design is bit a disappointing and lacking in detail. This is an opportunity to enhance the building as a gateway to the conservation area.

It shouldn't take too much but as a minimum the ground floor windows should be balanced. The right hand side features two windows with no central divider which is different to the left side. I would also prefer to see some stone header detail over the windows. I also feel the front door should feature a header detail of some kind. The inclusion of these features would help to reflect its past as a public house. I've looked at the Sussex Brewery pub for some inspiration as I can't find any historic pictures of the site when it was a pub.

Please could you feed this back to the agent and ask for a tweaked design which reflects these comments?

Many thanks

Rachael
