

Dear David

Further to the below, just wanted to check if any more consultation responses have been received? The online planning register suggests not but if so please do forward them to us and we will be more than happy to respond.

On a separate but related point, we attach an email from Havant Lorry Park (in response to the comments made by Hampshire County Council Highways) confirming that the proposal will not conflict with parking on the HGV lorry park and will not restrict the entrance or exit in any way.

Kind regards

Sarah
