Dear Sir,

9 East Street, Havant, PO9 1AA

Demolition of existing retail unit (no. 9 East Street) and construction of 10 no. supported living units, use Class C2

Thank you for reconsultation on the above planning application. The applicant has provided a summary note for this application and the associated developments at The Pallant and East Street. Each application has been reviewed and responded to separately.

6 car parking spaces will be offered for use by staff only. Given the site's accessibility to sustainable forms of transport, this matter is considered acceptable. The applicant has also demonstrated that the site can be serviced from East Street and/or The Pallant. This matter should be discussed and clarified with the emergency services and the refuse company so that there is a clear understanding of the preferred servicing and emergency access arrangements.

The applicant has addressed the comments raised within the Highway Authority's previous response. The Highway Authority therefore raises no objection, subject to the following condition:

*Director of Economy, Transport and Environment
Stuart Jarvis BSc DipTP FCIHT MRTPI*

CONSTRUCTION METHOD STATEMENT REQUIRED

No development shall start on site until a construction method statement has been submitted to and approved in writing by the Planning Authority, which shall include:

- (a) A programme of and phasing of demolition (if any) and construction work;
- (b) The provision of long term facilities for contractor parking;
- (c) The arrangements for deliveries associated with all construction works;
- (d) Methods and phasing of construction works;
- (e) Access and egress for plant and machinery;
- (f) Protection of pedestrian routes during construction;
- (g) Location of temporary site buildings, compounds, construction material, and plant storage areas;

Demolition and construction work shall only take place in accordance with the approved method statement.

Reason - In order that the Planning Authority can properly consider the effect of the works on the amenity of the locality.

Yours sincerely,

Chris Hirst

Director of Economy, Transport and Environment
Stuart Jarvis BSc DipTP FCIHT MRTPI
