 - Your application was acceptable as submitted and no further assistance was required.
- (9) The applicant is advised of the following consultation response received from Southern Water:

It appears that the developer is intending to build-over/close-to a public foul sewer which is crossing the site. Building over a "public sewer" is not normally permitted by Southern Water. An investigation of the sewer is required to confirm its size and depth, ascertain its condition, number of properties served and potential means of access before any decision can be made as to whether it would be acceptable for Southern Water to allow building-over/close-to the sewer. The length of sewer to be built over under the terms of Part H of the Building Regulations dictates that the matter is determined by the sewerage undertaker, which in this case is Southern Water.

The conditions associated with the build-over/close-to a public sewer are contained in Southern

Water guidance notes which are available at:

developerservices.southernwater.co.uk/BuildOver/ApplicationForm

The applicant is advised to apply for approval of the works through the Build Over Public Sewer application process.

It is possible that a sewer now deemed to be public could be crossing the development site.

Therefore, should any sewer be found during construction works, an investigation of

*the sewer will
be required to ascertain its ownership before any further works commence on site.*

*Southern Water requires a formal application for any new connection to the public
foul and surface
water sewer to be made by the applicant or developer.*

*To make an application visit: developerservices.southernwater.co.uk and please
read our New
Connections Services Charging Arrangements documents which are available on
our website via
the following link:
southernwater.co.uk/developing-building/connection-charging-arrangements.*

*In situations where surface water is being considered for discharge to our network,
we require the
below hierarchy for surface water to be followed which is reflected in part H3 of the
Building
Regulations. Whilst reuse does not strictly form part of this hierarchy, Southern
Water would
encourage the consideration of reuse for new developments.*
