To the planning case officer,

Dear Joseph Toole,

7 Oyster Close, South Hayling, Hayling Island, Hampshire
Planning Application: **APP/20/00897**
Proposal for single storey rear extension with flat roof and roof-lantern window

Thank you for consulting The Chichester Harbour Conservancy concerning the above planning submission. The Conservancy is a non-statutory consultee.

The landscape of Chichester Harbour was recognised as nationally important when it was designated as an Area of Outstanding Natural Beauty (AONB) in 1964, through the National Parks and Access to the Countryside Act of 1949. The Conservancy was established by the Chichester Harbour Conservancy Act of 1971. The purposes of the Conservancy are the responsibility for navigation and the conservation of nature. The Countryside and Rights of Way Act of 2000 formally established the Conservancy as the Joint Advisory Committee for the AONB, with the purpose to conserve and enhance the natural beauty of the landscape.

In its role in managing the Chichester Harbour Area of Outstanding Natural Beauty (AONB), The Conservancy has considered the submitted proposal against the Conservancy's planning guidance and principles - including The Chichester Harbour Management Plan (2019-2024), The Chichester Harbour Planning Principles (Management Plan version April 2019), The Chichester Harbour AONB Landscape Character Assessment (CBA update 2019), and The Chichester Harbour AONB Joint SPD (May 2017), adopted by both Chichester District Council and Havant Borough Council.

Under the Chichester Harbour Conservancy officer fully delegated decision process, the Local Planning Authority (LPA) is hereby advised that the Conservancy makes the following comment in relation to the above application.

Chichester Harbour Conservancy Recommendation – No objection

Suggested considerations –

- schedule/samples of materials to be agreed prior to construction / as indicated on application forms / to match the existing on site.
- the glazed fenestration should employ tinted glass panels where appropriate, and these should be fitted with working internal screen blinds to reduce light spillage during evenings and night-times (dark skies policies) in order to minimise and reduce the amount of light illumination emitted both to the surrounding skyline and to the visual horizontal aspect of the new window openings.
- any and all roof lights / skylights / ridge-lights / roof lantern / clerestory lights / glazed gable windows, should be fitted with working internal screen blinds to reduce light spillage during evenings and night-times (dark skies policies) in order to minimise and reduce the amount of light illumination emitted both to the surrounding skyline and to the vertical, skyward, aspect of the new window openings.

AONB Family

- any and all external lighting shall be fitted with a suitable and effective cowling to focus the light-beam and illumination downwards and prevent light spillage above the horizontal and into the night sky, so as to comply with the Dark Skies approach within the AONB protected landscape and to limit disturbance to wildlife.

The proposal would have a localised impact on the character and appearance of the building and the immediate surrounds. The proposal would have a visual impact on the AONB protected landscape, but this is within realistic acceptable limits for the immediate area and the wider AONB protected landscape environment setting.

Given its setting, the proposal is considered not to be unduly prominent to be detrimental to the character or the appearance of the Area of Outstanding Natural Beauty (AONB).

The proposal is unlikely to have any significant impact or effect on the AONB in terms of landscape character or in relation to wildlife conservation and protection.

- - -

It is noted that the submitted proposal makes **no** acknowledgement of the sites location adjacent to the Area of Outstanding Natural Beauty (AONB). The AONB landscape includes open countryside, rural hamlets and villages, urban built-up market towns as well as the harbour waters, all of which are subject to a higher level of planning scrutiny and where development is subject to more stringent planning guidance to ensure that development respects and enhances the inherent qualities of such a sensitive location. The proposal has apparently been made with a level of understanding that would be considered absent in this regard. This is regrettable and unfortunate given the nationally recognised protected status of the AONB.

- - -

A copy of the Chichester Harbour Conservancy AONB Unit Planning Assessment Report is attached to this consultation response for your information and for open transparency public view.

Should you require any further clarification with regards to this recommendation please contact the CHC AONB Planning Unit.

The delay in this consultation assessment and response to the LPA has been brought about due to the current limitations in the normal operational role and working practice of the CHC resulting from the coronavirus Covid-19 restrictions imposed for a safe workplace environment and the delay in the CHC receiving notification of the proposal which lies adjacent to and alongside the AONB protected landscape designated area.

It is noted that as of 30 November 2020 (the date of this dispatch) the LPA web site still shows this proposal as still pending a decision.

Yours Sincerely,

David Rothery
Principal Planning Officer
Chichester Harbour Conservancy AONB Unit
