7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- (i) Principle of development
- (ii) Appropriateness of design
- (iii) Effect on the streetscene and neighbouring properties

(i) Principle of development

7.2 The application site is located within the defined urban area, therefore development is considered acceptable in principle subject to development control criteria.

(ii) Appropriateness of design

7.3 The proposed replacement doors are on the eastern and western elevations of Flats 1-6 and the northern and southern elevations of Flats 7-12 and will upgrade the security of the buildings. The design and appearance of the new doors are deemed to be an improvement to the external appearance of the existing buildings and are considered to be acceptable.

(iii) Effect on the streetscene and neighbouring properties

7.4 The proposed works would result in a modest modification, upgrading the front and rear communal entrance doors and it is therefore judged the visual impact would be minimal. It is not considered that the proposed alterations would be detrimental to the amenities of the occupiers in the flats or neighbouring properties in the surrounding area.

8 **Conclusion**

- 8.1 The scale, siting and design of the proposal is considered to be acceptable and is recommended for approval.
