

“Today’s customers want uniquely designed homes made from durable and low maintenance building materials. James Hardie® products offer a perfect solution.”

John Tee, Architect

**High performance,
inside and out**

James Hardie® products are designed to stay as beautiful, strong and weather resistant as when your project was built. Our secret for everlasting youth? The James Hardie fibre cement formulation: an invention that's allowed us to make the most durable fibre cement products on the market.

As the pioneers of seventh generation fibre cement, our unmatched technological innovation makes our products generations ahead of competitors in performance and appearance, delivering ultimate peace of mind.

**Standing strong for
years to come**

The superior characteristics of our fibre cement products make them the preferred, low maintenance choice of professional builders, architects and homeowners alike. James Hardie® fibre cement is thinner and lighter-weight, yet stronger and easier to handle than most alternative building materials, ensuring your build moves along faster – with less hold ups and complications.

Feel confident in the staying power of your build: our products are non combustible, water resistant and will never rot or warp.

HardiePlank®

Introducing HardiePlank®

HardiePlank® Weatherboard

Cedar Texture, open joint Installation in Boothbay Blue

"We looked at all the options,
including HardiePlank®, and for us
it was an easy decision; quick to
install, cost effective and beautiful.
It just looks and feels perfect."

Bill Jenkins, homeowner

"The more people see and hear about James Hardie, the more they fall in love. HardiePlank® is universal in its appeal."

Gary Stevens, Fabulous Fascia Company

"This is a sustainable and marvelous substitute for wood. It's pre-coloured and the finish truly looks like high grade wood cladding. I've used this product for years and have been delighted with the results."

Sarah Susanka, Designer

"Words cannot describe how
HardiePlank® has changed my
home. Our house looks great and
is a lot more maintenance free
- no more painting and scraping."

Jim Cornett, homeowner

HardiePanel[®]

HardiePanel® The robust, non combustible, large format facade
'at a glance' board engineered to leave a lasting impression.
HardiePanel® cladding is available in a range of
21 colours and a choice of three textures - making
it a smart solution for any project.

With clean, crisp lines perfectly suited to large-scale renovations and new builds, our unique ColourPlus™ Technology formulation and 10 year warranty ensure it retains an immaculate appearance for years to come. Alternatively, our PrimePlus™ finish offers endless flexibility to create bespoke colour choices on every design.

“Choosing to use James Hardie® facade products was an important decision for us, we needed materials that would stand the test of time.”

Kam MacRory, Berkeley Homes

“HardiePanel® helped us to deliver our unique architectural vision. A great solution which provided design flexibility with durability.”

Mr Demeulemeestar, Nexity

"We use James Hardie® for many reasons; quality, durability, cost effectiveness and architectural design."

Gregg McGaha, Morrison Homes

"When you take on board the cost of preparation and maintenance that comes with alternatives, then fibre cement makes a strong competitive case."

David Tomlinson, Coombs Construction

HardieLine®

HardieLinea® Installed horizontally, HardieLinea® premium weatherboard casts stunning deep
'at a glance' shadow lines in a selection of 10 colours, delivering the ultimate in both aesthetic beauty and protection against the elements.

With its range of elegant, contemporary colours and powerful graphic lines, HardieLinea cladding creates endless possibilities for architects and homeowners alike. And a factory-applied, ColourPlus™ Technology finish will ensure your facade remains beautiful no matter what the weather presents. Specifically formulated to provide a low maintenance durable exterior, the multi-coat baked-on finish supplies the perfect fade-resistant match for your build.

"It's such a deep, chunky board,
much less fussy than standard
weatherboard, and gives a really
clean line and smooth finish that
looks very substantial."

Homeowner, Anne Kingdon

“HardieLine® is a beautiful product, with all the artistic freedom of real wood cladding, but without the maintenance issues.”

Nick Mortimer, Architect

James Hardie® Trims

ColourPlus™ Technology

ColourPlus™ Perfected through years of research and development,
Technology we created ColourPlus Technology to ensure lasting exterior results on every build.

With a multi-coat, baked-on finish to match your design, the ColourPlus specific formulation is 30% more resistant to UV fade than paint applied on site, minimising maintenance while retaining its timeless, vibrant beauty.

Selected from a palette of classic and contemporary colours, ColourPlus Technology is underpinned by a 10-year warranty which protects against peeling, chipping or cracking.

Cool Collection

Evening Blue

Muted gunmetal blue comes alive next to a creamy neutral.

Boothbay Blue

Gorgeous grey-based blue inspired by enduring seascape shades.

Light Mist

Softly sophisticated, this pale lilac-hued grey evokes classic lines of Kentish beachfront homes.

Arctic White

Timeless, snowy neutral with calming, cool grey undertones.

Neutral Collection

Rich Espresso

This classic dark shades subtle brown pigments infuse warmth into a clean grey base.

Monterey Taupe

Subtle neutral undertones of oyster and seashell converge for a shade of timeless Oxfordshire stone.

Cobble Stone

Contemporary dove-grey neutral with golden undertones.

Sail Cloth

Soft hues of undyed linen infused with subtle pearly warmth.
