Subject: APP/19/01190 162 Stakes Hill Road, Waterloooville, PO7 7BS 20.0001

Dear Lesley,

APP/19/01190 | Erection of a 2 1/2 storey block of 9 apartments after demolition of existing dwelling, utilising existing access and with provision of car and cycle parking and bin storage. | 162 Stakes Hill Road, Waterloooville, PO7 7BS 20.0001

Thank you for consulting me on this application.

The application is accompanied by an Ecological and Bat Potential Assessment (Sylvatica, June 2019) and a Bat Survey Report (Sylvatica, August 2019). The site comprises a single detached building set within areas of hardstanding and amenity grassland with associated ornamental plantings and trees. Overall I am content that the site is of limited ecological value. The building has been shown not to support roosting bats and therefore no further surveys are required.

Given the existing ecological value of the site there is an opportunity for ecological enhancement, although the majority of the site will comprise either building or paved/surfaced parking. Given the lack of greenspace within the proposed site I would therefore recommend that the new building provides opportunities for roosting bats and nesting birds such as common swift (e.g. swift bricks). Bird and bat boxes can readily be incorporated into the fabric of the new building and there is a variety of inexpensive commercially-available options.

If you are minded to grant permission can I suggest that ecological enhancements are secured by condition.

The new building shall incorporate a minimum of two built-in bat roosting units and two built-in bird nesting units. These ecological enhancement features shall be installed as per manufacturers instructions and retained in a condition suited to their intended function. Reason: to protect biodiversity in accordance with the Conservation Regulations 2017, Wildlife & Countryside Act 1981, the NERC Act (2006), NPPF and Policy CS 11 of the Havant Borough Core Strategy March 2011.

If you have any queries please don't hesitate to contact me.

Kind regards,

Tristan
