Hi Julian-

The changes are listed in the revision note 'Plots 170-177 and adjacent turning head repositioned to increase garden depths to plots 170-173'.

All layout plans noted on the drawing register were affected by these changes. Also having reviewed the streetscape drawing PL-05 this was also effected; mainly the key diagram but thought it best to update so there was no ambiguity between our drawings. I have attached this for distribution also.

House Type Booklet – Flat Type HT1/HT2 first floor amended to reflect Juliet balcony and doors opening inwards.

D&A – All diagrams updated to suit latest layout including 3D massing images and coloured plan.

All of the drawings that were issued to planning 04/03/20 and 17/04/20 (as noted on the drawing register) are to be superceded with the latest drawings issued 28/04/20 with the same drawing reference including the drawing attached.

Hope this is ok Julian.

Best regards

Keith
