

I write to you with deepest concerns regarding the proposed planning to 2 Ashwood close. I am a resident of (REDACTED) and would like to request a refusal to this proposal. My reasons are as followed.

The side extension would restrict the natural light entering the side door to our property leading to our kitchen. Please see attached photos for your reference.

The dormers on the back of the property, because of how the bungalows are positioned, would over look our garden restricting our privacy. In relation to this I look after my 8 grandchildren on a regular basis and the privacy of them is crucial. This is one of the reasons we brought the property.

Structurally speaking the proposed planning, if to go ahead, would look completely out of character to the rest of the properties in the area resulting in a lack of interest from potential buyers and potential loss in value.

The proposed side extension, if to go ahead would require scaffolding on our side of the border and I fear the health and safety of our grandchildren. I am also sure it would restrict our side access. Please see pictures for your reference.

I would like to thank you for your time and the consideration of our thoughts on this over development.

This picture shows the lack of space between the borders just how the potential build will restrict light and where the scaffolding would have to be.

**This picture clearly shows the existing view
from our kitchen door.**

This picture will show just how the bungalows are positioned in the street each one set slightly back from the other. Resulting in our privacy being removed.
