

Arboricultural Impact Assessment

106 Southleigh Road, Havant, PO9 2PS

Tree Preservations Orders:

Copper Beach north east corner – no building works to be undertaken in this area.

Red Oak western corner – felled due to disease, due for replanting in the autumn in location specified on the block plan of the site.

Common Oak south of the felled Red Oak on the western boundary - no building works to be undertaken in this area.

Conclusion

It is considered that the proposed garage will not affect the 2 remaining trees covered by TPO's to the front of the property. The replanting of the Red Oak will be in a location close to its original position but replanted after any proposed building works to ensure no damage.
