**The Town and Country Planning (Development Management Procedure) (England)
Order 2015
Notification of Decision**

Application Number: APP/20/00307

Site Address: Verge to west of The Manor, Edward Gardens, Havant, PO9 3JJ

Proposed Tree Works: Reduce 1No. Elder (T1) to height of fence, remove to ground level Laurels (T2), remove to ground level 2No. Holly Clusters (T3), crown raise 1No. Beech (T4) over path to roughly 6m and reduce back to previous points (in line with path edge), crown raise 1No. Beech (T5) over path to roughly 6m to make path more accessible, cut back 1No. Yew (T6) to stem to a height of 2m from roadside, remove large ivy clad stem overhanging road to ground level 1No. Beech (T7) and reduce Easterly facing branches by up to 1m leaving an eastern crown spread of 3m over road. All trees within Conservation Area Old Bedhampton.

Further to your notification received on 14 April 2020, Havant Borough Council, as Local Planning Authority, advises that it **Raises No Objection** to the above tree work in Old Bedhampton Conservation Area.

This decision is subject to the work being carried out in accordance with the details submitted with your notification.

If you wish to vary the works proposed or carry out the work at a later time it may be necessary to submit a further formal notice under the above Act and give the Council as Local Planning Authority a further 6 weeks to reach a decision. Should you wish to obtain any further advice in this matter, please contact the Council's Tree Officer by ringing in the first instance the Customer Service Centre on 023 9244 6015.

You must consider the timing and type of tree work operations to avoid causing disturbance to any nesting or breeding birds or bat roosts that may be present within trees in accordance with the Wildlife and Countryside Act 1981 (as amended) and the Conservation of Habitats and Species Regulations 2010. Before any felling of trees, tree surgery, or ground clearance commences, a thorough external inspection of the tree should be undertaken. If any protected species are identified during the inspection, you should refer to Natural England's Protected Species Standing and seek the advice of a qualified ecologist in how to proceed. Details are available via the main enquiry line 0300 060 3900 or at:

<http://www.naturalengland.org.uk/ourwork/planningdevelopment/spatialplanning/standingadvice/advice.aspx>

Our Ref: APP/20/00307

Disturbance to nesting birds during the months between April and September should be avoided.

The following factors increase the probability of trees being used by roosting bats:

- Located in ancient woodland or parkland

- Large trees with complex growth form

- Species that typically form cavities, such as beech, willow or ash

- Visible damage caused by rot, wind, woodpeckers, lightning strike etc.

- Loose bark providing cavities

If nesting birds or bat roosts have been disturbed (and therefore a breach of the above-mentioned legislation has taken place), you should report the matter to the Police immediately, as a wildlife crime may have been committed.
