

Afternoon Selina,

I just wanted to check, as there is a typo. The upstairs windows will not be obscured glass as these are velux windows. The downstairs bathroom window already has obscured glass. We changed the majority of our windows prior to applying for planning permission

Yes we are happy to build the soak away, larger than required. We will happily do this to 2.5m3, as previously stated.

Thanks
Kimberly

Dear Kimberly,

Following my previous email I meant to say that the Council's Civil Engineer has stated he will accept 2.5 m3 as the soakaway size. C

Yes 2.5m3 is OK. They have done all we can ask them to do within the bounds of 'reasonableness'.

Hi Steve,

Had this back from 32 Spring Vale – do you know if this is acceptable for the pre-commencement condition soak away calculations ?

Cheers,

Selina
