7 **Planning Considerations**

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

7.3 This application to undertake works to trees protected by a Tree Preservation Order relates to the proposed pruning of one Willow and one Poplar.

Both trees are large mature specimens located in the parking area to the rear of the properties on Stakes Road. They have approximately 4m of re-growth since the last pruning operation and it is now considered appropriate to prune back to the previous pruning points.

As far as it was reasonable to see they appeared to have good vigour and vitality for their age and species.

No objections to the application have been received.

8 **Conclusion**

The work proposed is considered to be appropriate and proportionate and therefore permission should be granted.

9 **RECOMMENDATION:**

That the Head of Neighbourhood Support be authorised to **GRANT TPO CONSENT** for application APP/19/01092
