**The Town and Country Planning (Development Management Procedure) (England)
Order 2015
Grant of Planning Permission**

Application Number: APP/20/00298

Site Address: 143 Blendworth Crescent, Havant, PO9 2BD

Proposal: Erection of 1No. 2 bed end of terraced dwelling with associated parking and access.

Further to your application received on 14 April 2020 Havant Borough Council, as Local Planning Authority **Grants Planning Permission** for the above proposal in accordance with the submitted plans and particulars as detailed below.

This permission is subject to compliance with:

- (i) The plans and other documents submitted with regard to your application; and
- (ii) The following conditions:

Conditions:

- 1 The development must be begun not later than three years beginning with the date of this permission.
Reason: To comply with the requirements of Section 91 of the Town and Country Planning Act 1990 as amended by Section 51 of the Planning and Compulsory Purchase Act 2004.
- 2 The development hereby permitted shall be carried out in accordance with the following approved plans:
Planning and Design and Access Statement by Stephen Andrews
Location and Site Plans Drawing Number 004
Proposed Floor Plans Drawing Number 001
Proposed Front and Rear Elevations Drawing Number 002
Proposed Side Elevation Drawing Number 003
Reason: - To ensure provision of a satisfactory development.

- 3 The development hereby permitted shall not be occupied until:
- a) A water efficiency calculation in accordance with the Government's National Calculation Methodology for assessing water efficiency in new dwellings has been undertaken which demonstrates that no more than 110 litres of water per person per day shall be consumed within the development, and this calculation has been submitted to, and approved in writing by, the Local Planning Authority; all measures necessary to meet the agreed waste efficiency calculation must be installed before first occupation and retained thereafter;
 - b) A mitigation package addressing the additional nutrient input arising from the development has been submitted to, and approved in writing by, the Local Planning Authority. Such mitigation package shall address all of the additional nutrient load imposed on protected European Sites by the development when fully occupied and shall allow the Local Planning Authority to ascertain on the basis of the best available scientific evidence that such additional nutrient loading will not have an adverse effect on the integrity of the protected European Sites, having regard to the conservation objectives for those sites; and
 - c) All measures forming part of that mitigation package have been provided to the Local Planning Authority.
- Reason:** There is existing evidence of high levels of nitrogen and phosphorus in the water environment with evidence of eutrophication at some European designated nature conservation sites in the Solent catchment. The PUSH Integrated Water Management Strategy has identified that there is uncertainty as to whether new housing development can be accommodated without having a detrimental impact on the designated sites within the Solent. Further detail regarding this can be found in the appropriate assessment that was carried out regarding this planning application. To ensure that the proposal may proceed as sustainable development, there is a duty upon the local planning authority to ensure that sufficient mitigation for is provided against any impacts which might arise upon the designated sites. In coming to this decision, the Council have had regard to Regulation 63 of the Conservation of Habitats and Species Regulations 2017, Policy CS11 of the Havant Borough Local Plan (Core Strategy) 2011 and Policy E14 of the Pre-Submission Havant Borough Local Plan 2036.
- 4 The external materials used shall match, in type, colour and texture, those of the host dwelling and terrace as far as practicable.
- Reason:** In the interests of the amenities of the area and having due regard to policy CS16 of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework.
- 5 The hereby approved dwelling shall not be occupied until details, including siting, size and height, elevations and materials of a cycle store have been submitted to and approved in writing by the Local Planning Authority. The approved cycle store shall thereafter be provided before first occupation of the dwelling, and retained for its use in accordance with the details thus approved.
- Reason:** To ensure the appearance of the development and the height and design of the cycle shed is satisfactory, having due regard to Policies CS16 (1) and DM13 of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework 2012.

- 6 The dwelling hereby approved shall not be occupied until a detailed soft landscaping scheme for all open parts of the site frontage including the frontage boundary between the hereby approved dwelling and number 143, has been submitted to and approved in writing by the Local Planning Authority. Such scheme shall specify the distribution and species of shrubs/hedge plants and ground cover to be planted, the positions, species and planting sizes of the trees and shrubs to be planted and/or retained, and timing provisions for completion of the implementation of all such landscaping works.

The implementation of all such approved landscaping shall be completed in full accordance with such approved timing provisions. Any tree or shrub planted or retained as part of such approved landscaping scheme which dies or is otherwise removed within the first 5 years shall be replaced with another of the same species and size in the same position during the first available planting season.

Reason: To ensure the appearance of the development is satisfactory and having due regard to policy CS16 9 (1) of the Havant Borough Local Plan (Core Strategy) 2011 and the National Planning Policy Framework 2012.
