Dear Bee,

168 London Road, Waterloooville, PO7 5SP

Two storey side and rear extension, following demolition of existing single storey extension; new dropped kerb access and provision of parking spaces.

Thank you for your follow up letter.

It appears that the work carried out on the highway has not been the subject of a licence under Section 171/184 of the Highways Act. As the applicant has chosen not to provide the required section drawing but to carry out the works instead there is a risk of vehicles grounding. Should this occur and cause damage to the carriageway or footway surfacing the applicant and future occupiers of the premises will be financially liable for the cost of repair. Therefore I confirm the Highway Authority have no objection subject to the following two Notes to Applicant being placed on the decision notice.

Notes to Applicant :-

1. Before undertaking any work which affects a public highway (including a public right of way) you must obtain specific written approval from the Director of Economy, Transport and Environment at Hampshire County Council and enter into or secure any necessary legal agreements or consents to enable the works on a public highway to proceed. It is an offence to carry out unauthorised works on a public highway. This requirement applies not only to the creation of new vehicle accesses involving excavation within a footway, verge or carriageway but also to the stopping of existing

access(es) or other works on or to the public highway. For further information, please contact highways.development.control@hants.gov.uk

2. There is a risk the constructed gradient of the access will result in vehicles grounding and causing damage to the surface of the carriageway or footway of London Road. In addition vehicles turning to or from the north may damage existing kerbs because the unauthorised works to the highway appear to have not taken into account these manoeuvres. The owner/occupier of the premises will be liable for any repairs reasonably considered necessary by the Highway Authority, Hampshire County Council.

Yours sincerely,

Ray Alborough
