

This is a technical architectural elevation drawing of a building facade. The drawing is composed of several distinct sections. On the far left, there is a gabled roof structure. To its right is a section with three rectangular windows, each divided into two panes by a horizontal mullion. Further right is a section with a single rectangular window, also divided into two panes. A long, thin arrow originates from the right edge of the drawing and points towards the right, indicating that the facade continues beyond the shown area. The drawing uses simple black lines on a white background to represent the building's form and features.

Windows on the East elevation are to be obscured
