

This is a detailed architectural elevation drawing of a two-story house. The house features a gabled roof with a wide overhang. The exterior walls are finished with horizontal siding. The foundation is depicted with a stone or brick pattern. On the second floor, there are two windows, each divided into four panes by a horizontal and vertical muntin. On the first floor, there is a large double door with transoms on the left, followed by a large window with a decorative diamond-shaped muntin pattern, and a smaller single door on the right. Dashed lines are used throughout the drawing to indicate the placement and dimensions of these openings. A green horizontal line at the bottom left indicates the ground level.

Architectural elevation drawing of a two-story house. The house features a gabled roof with a wide overhang. The upper story has horizontal siding and two windows: a small square window and a larger rectangular window. The lower story has a front entrance with a small porch supported by columns, a large window to the left of the entrance, and a long, multi-paned window to the right. The foundation is made of stone blocks. The drawing is a line art illustration with no shading.

This is a detailed architectural elevation drawing of a two-story house. The house features a gabled roof with a wide overhang. The exterior walls are finished with horizontal siding. On the second floor, there are five windows: two on the left, one in the center, and two on the right. Each window is a double-hung style with a horizontal muntin bar. The first floor has a central entrance door with a transom window above it. On either side of the door are pairs of double windows, also in a double-hung style. The house is set on a foundation of stone or brick, indicated by a patterned line at the base. The drawing is a black and white line art style, typical of architectural blueprints.
