

Materials for 22 Haslemere Gardens Hayling Island

The driveway and paths

will be laid in Golden Brindle Formpave permeable paving blocks as below

All additional area will be laid to lawn

These blocks have been used and approved in other developments in the area.

Bricks below render

We propose to use Forterra Atherstone Red and example of which is shown below together with a recent extension build on Hayling Island using these brick

Render

Above the brickwork we intend to use White K Render as below

Roof Tiles

We propose to use Marley double roman mosborough-red as per the image below

Windows

We proposed to use white UPVC windows as below

facias and guttering

will be white upvc to match

The front Door will be similar in colour and design to the one shown below
