Thank you for your consultation.

Natural England has no comment to make on the discharge of condition 18.

Natural England has not assessed this application for impacts on protected species. Natural England has published [Standing Advice](#) which you can use to assess impacts on protected species or you may wish to consult your own ecology services for advice. We would recommend that the BMEP is submitted to and approved by the HCC Ecologist to ensure that any measures identified within the report, and any further measures as necessary, are secured and implemented with any planning approval.

Should the proposal be amended in a way which significantly affects its impact on the natural environment then, in accordance with Section 4 of the Natural Environment and Rural Communities Act 2006, Natural England should be consulted again. Before sending us any further consultations regarding this development, please assess whether the changes proposed will materially affect any of the advice we have previously offered. If they are unlikely to do so, please do not re-consult us.

Kind regards
