**7 Planning Considerations**

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site

observations.

- 7.3 This application to undertake works to trees protected by a Tree Preservation Order relates to the proposed pruning of two mature Oak trees located within the property 5 Balmoral Drive, but which overhang the driveway of 7 Balmoral Drive.

The trees were viewed from the applicant's property therefore an inspection of the base of the trees was not undertaken.

The applicant is not the tree owner but wishes to prune back branches overhanging the driveway to reduce the encroachment. This work has been undertaken historically and will not harm the trees.

No objections to the application have been received.

## 8 **Conclusion**

The work proposed is considered to be appropriate and proportionate and therefore permission should be granted.
