

I am sending this message to you on behalf of a lot your constituents who have just become aware of the Planning Application made to Havant Planning Department (Ref: APP/20/00436), to demolish a historic building to make way for two houses.

The property is The Gatehouse, 16 Lovedean Lane, Lovedean PO8 8HH and is the last remaining part of the Keydell Estate.

This Gatehouse is of historical, military and architectural significance, being part of the WW2 D- Day preparations at Keydell House, let alone all of its' previous history and should be listed not bulldozed.

The community as a whole were totally unaware of this Planning Application due to the lack of Planning notices which should be placed in significant locations on the exterior of the property. They are required by law to display these notices for a period of 21 days.

Your constituents are very upset and angry about this proposal and would really appreciate you helping us in this matter to preserve and hopefully sympathetically restore this wonderful (probably Arts and Crafts) building from being lost forever.

The Ecological surveys are hugely contradictory and we feel everything about this proposal is misleading.

We have so few remaining beautiful historic buildings left now and this building is of great significance to this area.

Thank you for your consideration
