7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

- 7.3 This application to undertake works to tree protected by a Tree Preservation Order relates to the proposed pruning of two oak trees situated either side of the driveway.

Only one tree is protected and it is assumed it is the Oak to the north of the driveway is the protected.

The tree appears to be in good condition for its age and species, however some historic decay was noted at the base. It has been subjected to a cyclical management regime to maintain the tree in its location.

No objections to application have been received.

8 **Conclusion**

The work proposed is considered to be appropriate and proportionate and will not have a negative impact on the health or amenity value of the tree.

9 **RECOMMENDATION:**

That the Head of Neighbourhood Support be authorised to **GRANT TPO CONSENT** for application APP/19/01134 subject to the following conditions

- 1 The tree works for which consent is hereby granted shall not be carried out otherwise than in full accordance with all relevant content of BS 3998 (2010).

Reason: In the interests of tree health and safety.

- 2 The tree works for which consent is hereby granted shall be carried out and completed no later than 22/01/2021.

Reason: To control the timing of the works.
