Good morning Maria

I visited the site last Thursday 12th March 2020, and met Malcom Westcott from Barratt Homes. We walked the site and viewed the erected tree protection, and I can confirm that all is in order. The trees identified for removal as per my tree protection plan ref: 16270-BT3 have been removed.

Because there is no requirement for extensive special precautions, and that the tree protection will remain fixed in situ until completion, we should not need to visit the site on a frequent basis. The

site is likely to take several years to complete, so I would expect to only need a couple of more visits to check compliance during construction, and sign off at the end of activity.

Please don't hesitate to contact me if you have queries.

Regards

Chris
