NOTES:  
Levels are based on OS datum determined from National GPS Network using OSGB02.  
The level 64m National datum is usually better than OSGB, but higher than  
and it will differ by up to 0.2m and should be measured when carrying out  
other level data work or OSGBs such as other Authority sewer records.  
Coordinates based on NG grid determined from National GPS Network using OSGB02.  
No assumptions should be made regarding the interpretation of features.  
Changes shown here have been taken from surface inspection and should  
be verified if of critical importance.
