7 Planning Considerations

7.1 Having regard to the relevant policies of the development plan it is considered that the main issues arising from this application are:

- Whether the degree of pruning works requested would undermine the amenity value of these trees and whether this could also be harmful to their ongoing health and vitality.

7.2 My inspection related specifically to assessing the proposed works rather than generally inspecting the tree's health and condition in any great detail. I visually inspected the tree from ground level and the following report deals with the relevant issues that have been raised on site, in the application form and from my site observations.

- 7.3 This application to undertake work to a tree protected by a Tree Preservation Order relates to the proposed pruning of one mature Oak tree in the rear garden of the property.

The tree was viewed from the roadside therefore a detailed inspection has not been undertaken but the application has not been submitted because of the condition of the tree.

Due to the size and position of the Oak it is considered to have public amenity value. It was reduced a number of years ago and the applicant now wishes to prune the regrowth back to the previous pruning points.

No objections to the application have been received.

8 **Conclusion**

The work proposed will not harm the health or amenity value of the tree therefore permission should be granted.

9 **RECOMMENDATION:**

That the Head of Neighbourhood Support be authorised to **GRANT TPO CONSENT** for application APP/20/00473 subject to the following conditions

- 1 The tree works for which consent is hereby granted shall not be carried out otherwise than in full accordance with all relevant content of BS 3998 (2010).

Reason: In the interests of tree health and safety.

- 2 The tree works for which consent is hereby granted shall be carried out and completed no later than one year from the date of this decision.

Reason: To control the timing of the works.
