Dear Sir/Madam,

**Proposal:** Proposed side and rear extension to include raising of the roof height to the side extension.

**Site:** APP/20/00164: - 81 Westbourne Avenue, Emsworth, PO10 7QJ.

Thank you for your letter dated 30/03/2020.

Southern Water has no objection for the above proposal.

Southern Water requires a formal application for any new connection to the public foul sewer to be made by the applicant or developer. We request that should this application receive planning approval, the following informative is attached to the consent:

A formal application for connection to the public sewerage system is required in order to service this development. Please read our New Connections Services Charging Arrangements documents which has now been published and is available to read on our website via the following link  
[southernwater.co.uk/infrastructure-charges](https://southernwater.co.uk/infrastructure-charges)

The disposal of surface water from this development shall follow the hierarchy within Part H3 of Building Regulations:

- a) An adequate soakaway or some other adequate infiltration system.
- b) A water course.
- c) Where neither of the above is practicable: a sewer.

It is possible that a sewer now deemed to be public could be crossing the development site. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its ownership before any further works commence on site.

For further advice, please contact Southern Water, Southern House, Yeoman Road, Worthing, West Sussex, BN13 3NX (Tel: 0330 303 0119).
