

Dear Miss Donophy,

Thank you for your letter dated 17th June regarding the above application. I am slightly confused as to what this refers to.

The only difference appears to be the wording of the Proposal in your original letter, dated 22nd May, 2020 which stated the proposal was for **“Single storey side and rear extension with external alterations after demolition of attached garage”**. Your letter of the 17th states the proposal was for **“single storey side and rear extension to form annexe with external alterations after demolition of attached garage”**.

The details of the application and submitted intentions appear to be unchanged and therefore my objections and comments as included in my letter to you of the 22nd May, 2020 remain the same. I would like these to be taken into account when the planning application is considered.
