Subject: APP/20/00466 122 Greenfield Crescent, Waterlooville, PO8 9EN 20.0777

Dear Bee,

APP/20/00466 | New pitched roof porch to replace existing flat roof porch; first floor side extension over existing garage; single storey rear extension (after removal of existing conservatory). | 122 Greenfield Crescent, Waterlooville, PO8 9EN 20.0777

Thank you for consulting me on this application. Thank you for your patience during the delay in responding.

The application is not accompanied by any ecological information and I have therefore carried out my own non-exhaustive desk-based assessment using the application documents, online sources and GIS mapping. The dwelling is a modern property which is in sound condition. The roof materials are of interlocking concrete tiles and are in good condition. On this basis I do not consider that requesting additional information is justified on ecological grounds.

If you have any queries please don't hesitate to contact me.

Kind regards,

Tristan

Tristan Norton

Coronavirus (Covid-19)

Hampshire County Council's response to the Covid-19 is available here (<https://www.hants.gov.uk/socialcareandhealth/coronavirus>).

In line with Government advice to reduce non-essential travel and work from home where possible, Ecology officers are now working remotely. Whilst we will endeavour to conduct our services in a timely manner and to meet statutory timescales where we can, there may be some impact to the services we deliver. We will ensure that we keep all applicants / interested parties informed of any

further impacts to our services should they arise. The Council's response also means that no non-essential site visits or face to face meetings will be undertaken until further notice. Essential and contractual surveys may continue take place where there is no risk to the surveyor or the public, and in line with Government advice. This will be reviewed on an on-going basis.

Hampshire Services offers a range of professional consultancy services to partner organisations. Specialist Environment Services provides data, advice and assessments for ecology, heritage and landscape.
