Subject: RE: Fulflood Road Fulflood Road Planning Application APP/19/00909 Variation of Condition 10 of Planning Permission APP/18/00478 (Piling)

Hi Graham,

Further to our earlier telephone conversation please find attached a Vibration Assessment and the results of a noise survey carried out on one of our Quiet Hammer piling rigs which are no noisier than our CFA rig.

Please let us know if you still want an estimate for CFA piling and our Continuous Helical Displacement piling (CHD) which like the driven pile doesn't produce any spoil.

Kind regards,

Tim
